

Brother Brandon Thompson

Candidate for Nu Mu Lambda Dean of Membership

Greetings Brothers,

I am Brother Brandon Thompson, a Spring 2013 Initiate through our very own, Nu Mu Lambda Chapter. I currently work at AT&T Inc. as an Operations Planner and Test Lead Manager. I help organize, develop, facilitate and implement new enhancements into our network for multi-million dollar Projects as well as leading the Onboarding Process to train new hires. I am married to my best friend and very own super hero, Lindsey, who is currently a member of the Illustrious Delta Sigma Theta Sorority Incorporated. We both serve as Young Adult Coaches as Victory World Church, where we have a passion for impacting the lives of young adults.

As mentioned above, I am an initiate of the Nu Mu Lambda Spring 2013 Line in which I held to role as Line President. Upon crossing the sands into our Chapter I immediately hit the ground running and took on the role as Enrichment Curriculum Coordinator to our 12th grade Beaux. For 2 years I committed my time and heart to the development and growth of each group of Beaux, helping them enter the world as adults, equipping them with the skill sets needed as a young man to excel in this world. I am still involved in development of the Beaux after they graduate and begin pursuing lives as men. I have also served on the Education Committee, Beautillion Committee and Intake Committee, providing insight and support in any capacity needed of the Committee Chairs.

As Dean of Membership, I look forward to answering the call of not only protecting the doors of this House, but also utilizing my skill set of training and development to help New Brothers grow and learn what is means to be an Alpha. To do those foundational tasks I plan to root my platform on 3 main Principles:

No I in Team – I plan to have monthly Committee meetings and to seek the wise council of Brothers with the desire and passion to protect the House in order to make decisions in the best interest of the Chapter.

Development is Constant – Part of the Mission of Alpha Phi Alpha is the Development of Leaders. I plan to continue that development process for our new Brothers after they come into the House. Through my skillset and understanding attained from my career and my experience as Enrichment Coordinator, I look forward to developing a Curriculum for new brothers to grow and learn from during their season as neo.

Communication is Key – Direct and prompt communication to our Chapter of dates, times and all-important information pertaining to Membership Intake, New Brother Development and Events where interested candidates are invited. Open dialogue and assistance with Sponsors will be key to the protection of the House and the Accountability of New Brothers.

I believe I will carry out the vision of the Nu Mu Lambda Chapter to protect the House of Alpha and look for you support in my candidacy for Dean of Membership.

Fraternally,

Bro. Brandon Thompson
Spr 13 Mr. Peabody
